## ERRATUM

In Gao *et al.* (2017), the reference Thompson *et al.* (2011) was incorrectly cited for its contents. The statement “Thompson *et al.* (2017) reported significant damage to sunflower in Australia caused by *Diaporthe helianthi* which was originally only known from Europe (former Yugoslavia), and is apparently an invasive species in Australia”, should be corrected to: “Thompson *et al.* (2017) reported considerable damage to sunflower in Australia caused by *Diaporthe guylae*. *Diaporthe helianthi* has not been found in Australia and remains a biosecurity threat (Thompson *et al.* 2011).

Gao Y, Liu F, Duan W, Crous PW, Cai L (2017) *Diaporthe* is paraphyletic. *IMA Fungus* 8: 153–187.
